S-RM Data Protection Roles

This page sets out S-RM's role in relation to the Client Services Data it processes in connection with the services S-RM provides to its clients. Where S-RM processes Website Data and Client Data (as described in the S-RM Privacy Policy), S-RM is the controller.

The terms "controller" and "processor" (and their closest equivalent terms) have the meaning given to them in applicable data protection laws. S-RM is a controller where we make independent decisions about how personal data in relation to an individual is processed in connection with our services, and S-RM is a processor where we only use personal data in accordance with our client's instructions.

Business Unit	Service Line	Description of Role
Crisis Response	Crisis Response	S-RM acts as controller for all Client Services Data
Cyber Security	Cyber Advisory	S-RM acts as processor for Client Services Data provided to us by or on behalf of our client. S-RM acts as controller for Client Services Data S-RM collects via its own independent sources (i.e. other than from the client)
